

• Filtration • Strainers • Gas/Liquid Separation

Eaton Complete Family of Filtration Solutions

Bag and Cartridge Filtration Systems

Ideal for the removal of large amounts of very fine material from the process media.

- Single or multi-bag vessels in stainless steel, carbon steel, or corrosion-resistant plastic.
- Choose from a huge selection of filter bags in a variety of materials and retentions.
- High performance, cost-effective liquid process filter cartridges for common and difficult industrial applications.

Standard Cast Pipeline Strainers

Protecting pumps, filters, nozzles, flowmeters, valves, heat exchangers, condensers, oil burners, boilers, and other process system components from damaging pipeline debris is what Eaton Pipeline Strainers do best.

- **Heavy-Duty Y Strainer**
- **Simplex Basket Strainers**
- **Duplex Basket Strainers**

Mechanically Cleaned Strainers and Fabricated Pipeline Strainers

High-flow capabilities in hundreds of configurations and sizes.

- Sizes up to 60 inches
- Continuous Operation
- Motorized or Magnetically Coupled Actuation
- Custom designs and exotic materials of construction are available upon request

Mechanically Cleaned Filters

A green solution for the automatic removal of debris from liquids with no bags to buy, change, or landfill.

- Tubular Backwashing
- Disc Cleaning
- Pneumatic, Motorized, or Magnetically Coupled Actuation

Gas/Liquid Separators

Remove over 99% of moisture and particulate matter 10 microns and larger from air, gas, and steam lines.

An exclusive vortex containment plate (VCP) prevents re-entrainment and eliminates the need for complex baffles or deflectors. Offered in a variety of different models for application flexibility.

EATON

Powering Business Worldwide

MEDIA OPTIONS

Eaton offers thousands of options for both disposable media systems and equipment that utilizes permanent filtration and strainer elements.

- Permanent media elements for self-cleaning filters and strainers
- Bag filters to fit a wide range of filter housings—with filtration efficiencies up to 99.98%
- Cartridge filter with a variety of retention ratings, sizes, end caps, material, and gaskets

SPECIALITY & CUSTOM SYSTEMS

In addition to our standard solutions, Eaton offers many industry specific filtration, strainer, and separation products with a proven record of accomplishment. Eaton engineers can customize and design modular solutions that provide a full range of retention capabilities and construction materials in manual and automated designs.
